Specialty Program Profile

Excess Flood

RPS Itasca is proud to present a new Excess Flood Insurance Facility. Our long standing reputation and expertise in providing flood insurance solutions (offering NFIP coverage through American Bankers and Fidelity National Insurance Companies) and related consultative services was critical to its formation. The excellent relationships we have forged over the years with key Lloyd's syndicates allowed us to structure a new and innovative program lead by the ACE Syndicate.

The need to buy adequate Flood Insurance remains strong as the FEMA Map Modernization Program continues to produce thousands of map panel changes. Changing weather patterns also create unprecedented flood coverage problems for clients and brokers alike. This is a competitive, stable and long-term focused facility.

We encourage you to give it a shot!

Key Areas of Interest and Program Highlights

- Maximum \$10,000,000 in-house capacity excess of NFIP.
- Focus on risks with \$10,000,000 TIV or less; however, pleased to place outside program for risks that do not fit guidelines.
- Ability to provide Time Element coverage (not covered in NFIP policy) over separate deductible.
- Underwriting focused on commercial accounts, but homeowners will be entertained.
- Underwriting performed in-house and offer quick turnaround.

Marketing flyer for this product can be obtained by contacting RPS Itasca.

- Policy issuance and support operations provided by RPS.
- Competitive commissions.
- Aggregate capacity available in Gulf Coast high-hazard areas.
- Complete flood services, including flood zone determinations, elevation certificates, and NFIP coverage.
- Flood zone non-insurance transfer solutions available via third-party vendor agreements.
- Coming soon—web-based quote indications.
